

Traffic group report for March 2018

The traffic group has not met this month.

We are about half-way through the consultation period for the A303 tunnel past Stonehenge project. The consultation closes at 23:59 on Friday 6 April, any comments received after this will not be considered. Some feedback on the scheme was provided in connection with an appeal for local opinion in relation to the ICOMOS mission attended by the Chair, a response will be made to the originators pointing them towards Highways England.

This concludes the traffic group report.
