

Chair's report for April 2018

One thing that affects us all in Shrewton is the A303. Meetings to provide a positive legacy, such as footpaths and bridleways, are taking place and I would urge everybody who has not done so to respond to the Highways England A303 consultation, the closing date of which has been extended to 23 April – this is due to the recent bad weather preventing some public exhibitions taking place at the planned times.

This concludes the Chair's report.
