

Traffic group report for March 2018

The traffic group has not met this month.

The consultation on the A303 scheme at Stonehenge has been extended until 23 April due to the recent bad weather.

Complaints have been received about large numbers of over-weight MOD vehicles using the High Street. Signs are due to be put up prohibiting MOD vehicles from using the B3086, enquiries have been made as to whether this work can be expedited.

This concludes the traffic group report.
