

## **Traffic group report for August 2018**

The traffic group met on Monday 30 July at Councillor Hassett's house to discuss the forthcoming 'substantive bid' application for build-outs in the London Road.

Having failed in last year's application a smaller scheme, with fewer build-outs and various types of road markings, had been proposed however initial feedback from Wiltshire Council was that this smaller scheme, as it stood, would not be acceptable for various reasons. Work is currently still being undertaken to submit a scheme in time for consideration this year.

This concludes the traffic report.
