

Traffic group report for December 2018

Military Vehicles on B3086

As advised in the Chair's report a meeting between some Parish Councillors and the MOD took place on 14 November. One of the suggestions that came from the MOD was that an improvement in the advance signage instructing MOD traffic not to use Shrewton High Street and the London Road would be helpful (this has also been mentioned before). Thus far it has not been possible to progress this due to time constraints.

Pedestrian Walkway outside Co-Op.

The pedestrian walkway outside the Co-Op is having varying levels of success; many drivers are observing the markings but some ignore them. The traffic group will consider if anything more can be done.

This concludes the traffic report.
