

Chair's report for May 2019

Another year is starting for the Parish Council which (no doubt) will bring a fresh set of challenges; life is more complicated than ever and legislation changes to reflect this. The Parish Council has to work within the limits of what it is allowed to do so although it cannot always do what it would like to do for Shrewton it does its best to ensure Shrewton's voice is heard by those above us.

I recently attended the Recreation Ground to take part in some ground clearance work; although the Recreation Ground is not the responsibility of the Parish Council it is a fantastic resource and I would like to thank those others who gave up their time to help in this work.

This concludes the Chair's report.
