

NTG Meeting 3 February 2020

Attending: PCSO Tina ROYLANCE, PCSO Michael FAREBROTHER, PC 1390 Juliet COX
Many representatives of local parishes.

The numbers in the team have been growing with many more patrols of farms, hare coursing, speeding and so on.

They can also call on MOD police officers to help - there are apparently four and they have caught some offenders across the plain.

Parking issues at schools (in many communities) are generally best helped with a proactive head teacher and all need an up to date school transport plan. Apparently only about half actually have them.

Speed watch rotas should be added to the national computer and also sent directly to the team.

Worth checking the Shrewton ones are sent to both.

Broken windows - probably marbles or ball bearings from a catapult. Several communities affected. Keep eyes open!

There were also discussions on animal welfare and the George.
