

A303 Stonehenge (Amesbury to Berwick Down) A360 temporary closure

The A360 will be closed April - July 2024

Starting in April, we're temporarily closing a section of the A360 between Longbarrow roundabout and The Avenue roundabout.

Working on behalf of National Highways, Scottish and Southern Electricity Networks (SSEN), will carry out this work to provide an electricity supply for the A303 Stonehenge project. The diversion is shown on the map.

Access will be maintained for businesses, residents and emergency services.

Find out more

We have a dedicated website to keep you informed about this work. We will update this throughout the project. You can also sign up for email updates via this website or scan the green QR code.
